European soy: facts and trends in production and consumption

Information webinar CSI, October 21st 2021

Vision of the Collaborative Soy Initiative:

100% conversion free sustainable soy production and market uptake, on a global scale

Mission:

- 1) To inform about the actions that are on-going;
- 2) To facilitate synergies between stakeholder initiatives and actions;
- 3) To come-up with new actions that are not yet done, and relevant to (1) and (2)

Info webinars (such as today's!)

Info hub (see CSI website) and

“Meta Meetings” between global and regional soy initiatives---→ finding common ground/ how to tackle the obstacles.

Welcome to November 18th 15:00:-16:30 CET,

CSI outreach meeting of the Meta Meetings

“The Multiple Routes to Responsibility, combining the best of approaches for conversion free sustainable soy”

Please send mail to inscribe to:

coordinator@thecollaborativesoyinitiative.info
